MUSICAL MIND BENDERS

When you solve the riddle, send me an email to let me know your answer. I'll let you know if you are correct.

- 1. Rearrange the letters in WONDROUS MICE to make one music word.**
- 2. Typically, the rehearsal comes before the performance, and the performance will be followed by an encore. In what place does rehearsal come after performance and encore?**
- 3. Mr. Pianist, Mr. Singer, and Mr. Conductor met for lunch one day. Mr. Pianist said to the singer, "Isn't it strange that we all bear the name of a profession, but none of us has the profession for which we are named? What is each man's profession?"**
- 4. Two classes of 5th grade choir students from Ohio were going to perform at different national choir festivals. The first class was going to Washington, DC, and the second class was going to Chicago, Illinois. Both classes took planes that left at 3:00pm, and both class's flights were 1 ½ hours long. However, the class going to Washington, DC, landed at 4:30pm and the class going to Chicago landed at 3:30pm. How is this possible?**

Tongue Twister Challenge

Start slowly. Practice pronunciation. Make sure your mouth, tongue, and lips move in the manner they are supposed to for each consonant and vowel type. The emphasis is clear diction.

HAVE FUN AND LOTS OF LAUGHS!!

2ND

MY AUNT CAME BACK - This is a slightly different version than what we did in class, but you sing on the echo. Don't forget the actions! Let me know what you make up for the final 2 verses.

4TH

This is an interactive game you can play featuring the music "The Young Person's Guide to the Orchestra", by Benjamin Britten.

CREATE

Kandinsky - Chrome Lab

This experiment is inspired by Wassily Kandinsky, an artist, who compared painting to making music. It turns anything you draw into sound.

Spectrogram - Chrome Lab

A spectrogram is a picture of sound. It shows the frequencies that make up the sound, from low to high, and how they change over time from left to right. I recommend using the mic to listen to the sounds you make, either singing, speaking, or silly sounds.

Composing for TK-2

Drag different notes to the grid to create your composition. Different colors represent different values. Click play when you want to listen to your composition. If you would like to save it and send me a copy, I would love to listen to it!

Composing for 2-5

Drag the different note values into the columns to create your composition. Click play when you want to listen to your composition. If you would like to save it and send me a copy, I would love to listen to it!
